Complete Utensil Sets

Fine Fireplace accessories hand made in the German Alps, Red Anvil has a wide variety of appealing tools sets to suit your taste and style.

A mix of the highest quality steel, aluminum and wood make up this unique, user friendly collection. Varnished powder coated steel is available in Iron Black or Steel Gray. Wood options include Beech, Oak, or Walnut.

Enjoy a choice of various sized, smartly designed tool sets, ash brushes, dust pans, and pokers.

Separate Utensils & Holders

Italian designers, Studio Barazzuol/Malisan and Ferrari collaborated to produce an exclusive collection of cleverly formed smart and artistic tools and fireplace accessories. Leather elements add a soft touch with shots of color accent. Leather colors include:

A clever fire poker, Takk, designed by Harrie Leenders of The Netherlands, this twig look alike is made of durable aluminum with a wrapped leather handle for insulation and comfort. A unique tool, that can be conveniently set atop a woodpile or placed against a nearby wall for fashionable fire control.

Another simple interesting utensil set, 137 Wall, consists of a set of tongs and poker which can be easily hung on a wall.

FIRE BY DESIGN

Andirons, Wood Stackers, Wood Holders, Floorplates & Stove Pipe

Andirons for Fireplaces

Italian designers, Studio Barazzuol/Malisan and Ferrari collaborated to produce an exclusive collection of unique andiron designs for fireplaces.

Wood Stackers

Well executed and sturdy, the streamlined wood stoker and the wood bee by Harrie Leenders of the Netherlands can be custom ordered with one, two, or multiple modules for easy outside wood storage. The wood-bee can also be hung on a wall.

Wood Holders

Look forward to storing fuel for your fire with these uniquely designed wood holders from Ferrari. Made from the finest steel and leather components (colors shown on front page), they cleverly integrate the elements of industrial design with fashion colors to offer a combination of materials that are complimentary to your stove.

Floorplates

Floor Plates provide a safety functionality and define an environmental space that integrates the fireplace/stove into the living area. The floor plates, shown in the shapes above right, are available in tempered glass, steel (matte black or gray), and also in aluminum diamond and smooth plate.

Stove Pipe

All the wood burning fireplace/stoves use standard 6" diameter pipes which are constructed of 16 gauge heavy steel. Available in matte black or gray.
