

**SHAKER STOVE
WITTUS FIREPLACES**

This best product is inspired by classic American Shaker furniture designs, with its appealing proportions and spare lines, and is perfect for sophisticated, elegant and contemporary surroundings. The Shaker wood-burning stove/fireplace comes in matte black steel and is available in two versions. The standard model features a short table and measures 41 inches high, 34 inches wide, and 21 inches deep. The Shaker also has an extra-long version with a bench table that measures 6 feet and can be used for cozy fireside seating. All models utilize a highly efficient fire box and are EPA-certified and approved to UL/ULC standards.

**CUSTOMIZED STAIRS
AND RAILINGS
DA VINCI BY DESIGN**

Trends in luxe building and remodeling have always included mixing different materials and styles to get the desired design effect. Stairs and railings are no exception. It's all about the execution, though, and has to be done right without turning into a muddled mess. We think da Vinci by Design's stairs and railings rise to the occasion, not only by successfully integrating their products into a room but also by complementing it. Popular materials for their stairs and railings include glass on the railings and on the treads, which the company says let the natural outdoor light in. Mixing that with metals is stylistically pleasing and can add extra value to your next project.
