## Wittus Newsletter

March/April 2017

### Welcome Spring!

It's the perfect time visit us at 40 Westchester Avenue in Pound Ridge, NY. Wittus has some exciting products for Spring 2017. The Shaker stove is back in our collection and we have one on our showroom floor. We also have a wide variety of indoor and outdoor cook stoves and heating products. Come in and take advantage of what Wittus has to offer this season.

### Firebird Outdoor Grill

Our outdoor grill selection just got more interesting, the Firebird grill is back in our line up. Like the Phoenix grill, the Firebird is designed by Bent Falk from Denmark. The stove body is made of corten steel, which is known for its durability and when exposed to the elements it turns a rich reddish brown patina. The curved shape acts as a funnel

directing the smoke up and away from the chef. See the entire line of outdoor products on our website [www.wittus.com](http://www.wittus.com).

### How to Choose a New Stove

Choosing a new stove can be a challenging experience that can go much smoother when you have the right information from the start. The experts at Wittus are here to help. Here are sometime saving tips that can make this task go smoothly.

### Stove Buying Tips:

- Spring is a good time to start looking. It is a bit off season and you will have time to make your decision at a leisurely pace. Chances are that there will be plenty of openings for installers too.
- Do take recommendations from your friends if they already have a stove that they purchased from a reputable source.
- Do your homework regarding a stove's heat output credentials. You want to make the smart choice for the amount of space you wish to heat in your home.

### Stove News

One Stop Shopping with Style

*"Modern, low-emission and energy-efficient single room stoves are very versatile and flexible. In terms of both appearance and heating technology, they can fit into every design scenario, be it a classic, modern, or historic home. Heating a home comfortably and efficiently can be achieved with a wide range of stoves in different sizes, shapes, designs and surface materials."*

### Lugo Cook Stove

The Lugo cook stove from Romotop in Czech Republic is a fine heating and cooking product. The rounded corners of the stove body add a soft touch to an elegant design and offer a beautiful addition to rooms that are looking for a cooking feature. This stove is made of high grade dark gray steel with a natural stone cladding. Stove dimensions: 58"h x

22"w x 19"d. See website for more details.

### Shaker Celebration

The Shaker is a unique wood burning stove. It has immense contemporary appeal that combines tradition and charm. Designed by Antonio Citterio of Italy with Toan Nguyen, the Shaker design is based on American Shaker style furniture. This stove comes in two models: Shaker short bench and Shaker long bench.

Both models include a right or left side door opening option. This small but highly efficient heating machine is perfect for modern and classic homes.

### What's New at Wittus

It's so exciting to have new products to offer our customers. Just to mention a few, the Stack ceramic wood burning stoves from Italy, the Lugo cook stove from Czech Republic, and the Shaker stove from Denmark. Take a look at our website to see the full product offering and let us know if you need more information.
