Nurture the Earth!

Wittus hosted "Solarize Lewisboro - Pound Ridge!" for Earth Day which fell on Saturday April 22nd this year, why not make May Earth month! Finding ways to make the world a more environmentally friendly place includes replacing

an old wood stove with a new one. Wittus fireplaces and stoves are designed to do just that. Our contemporary styles are made with high grade steel and energy efficient design that are built to last a lifetime. See the entire line on our website www.wittus.com.

Happy Pizza Oven

May is all about getting outside after a long winter indoors. The Happy Pizza oven is the perfect product to make this happen in a flash. Cooking food in the Happy Pizza oven is easy and the results are delicious. It's pure outdoor gourmet cuisine the fun way. 3 models are available to suit every cook: Solo, Family, and Professional. See our website for oven dimensions and detailed product info.

A Hug Without Touching, HYGGE

Denmark is the happiest country in the world! Maybe it is because there are around 750,000 fireplaces and wood burning stoves in homes throughout Denmark (*Danish Ministry*). Fire is light and light

is Hygge (HOO-GA), the joys and warmth of a comfortable lifestyle. What is *happier* than a glass of wine among family and friends gathered around the fire. It's time to embrace a Wittus fireplace and feel the hygge! Here are some suggestions.

All Things Hygge:

- A Fireplace with a comfortable chair nearby
- Candles and good ambient lighting
- Nature and things made out of wood
- Earth tone ceramics and home accents
- Comfortable cushions, blankets and furnishings
- Books and good reads around the fire.

Stove News

One Stop Shopping with Style

"Hooga? Hhyooguh? Heurgh? It is not important how you choose to pronounce or even spell hygge. To paraphrase one of the greatest philosophers of our time- Winnie-the-Pooh- when asked how to spell a certain emotion, "You don't spell it, you feel it." ~Meik Wiking, *The Little Book of Hygge*

Kitchen Comfort, Domina

There's nothing like food prepared on/in a wood burning stove. The taste, the smell and the ambiance of the wood burning fire are all a part of the experience. Cook stoves from de Manincor are the perfect solution. The Domina, (featured here) has a stove top and an oven that can cook your food and heat your home at the same time. See the full collection under cook stoves on our product page.

Grill Revolution

A revelation in outdoor cooking, the "good time" Phoenix Grill is designed to make grilling a pleasure. The conical design funnels the smoke up and away from the chef. Food prepared on the Phoenix grill is extraordinary and each bit is tastier than the next. The multi-level grill rack adjustments act as a temperature gauge

allowing the cook to grill to perfection. Also available is the Firebird Grill, made from the same corten steel that takes on a beautiful patina when left outside. See both on our website.

Go Outside and Cook, Faltovn

A very special outdoor stove, the Faltovn is portable and practical. Designed by Harrie Leenders of the Netherlands, the stove is conveniently compact and folds up to fit into a portable carry bag, including the stove pipe! (the black leather bag is shown).

Weighing just 22lbs, take this into the wilderness or to the back yard for a cooking experience like no other.
