Solid... Like a Rock

Fill Your Home with Klassic Character

Outstanding good looks and classic style are a standard with the Klassic wood burning stove by Wittus. Danish industrial designer Bent Falk's revolutionary, yet contemporary stove is a combination of technology and function, offering its users the complete modern fireplace concept.

The Klassic stove's clean lines and purposely exposed high quality stainless steel rivets reveal the designer's signature style. This well crafted, multi functional stove can be enjoyed as a corner piece or a freestanding unit exposed on all sides. Enjoy a baking and roasting oven on top by lighting a fire in the heart of the stove, which has a modern EPA approved firebox that can accommodate up to 24" logs. The oven has a built-in thermometer and a natural two inch thick Brazilian soapstone baking liner for heat retention and consistent even baking. The self cleaning glass door feature is a bonus in every cook's eye, along with the convenient wood storage feature at the base of the stove. Standing at 60" tall, 32" wide and 25" deep, the Klassic stove has a distinct personality and unmatched style.

Customize your stove's stainless steel door with an accent feature of "peek" through laser cut stars. Choose from five baked-on enamel door colors. Don't miss this opportunity to shop with the stars; Kathleen Turner, Tom Hanks and The Rockefeller's have one, and so can you!
