Domino 8 Maxi

Kitchen Treasures.....

Cooking With Wood

Bring the romance of Italy into your kitchen - the Atmosfera, Eco 90 & 80, Domino 8 Maxi & 6 Maxi, and Domina wood burning cook stoves ranges are contemporary appliances with old world flair. Designed in Italy by the de Manincor family, who has been making stoves since 1828, the products are reliable, durable, powerful and safe. Every stove is especially designed with the element of essential cooking in mind.

The largest stoves – the Atmosfera and the Eco 90 with an oven size of 14”w x 18”d x 10”h, measures 35”w x 24”d x 34”h and has wood storage below. The Domino 8 Maxi and the Eco 80 measure 31”w x 24”d x 34”h. The Domino 8 Maxi has an oven size 21”w x 19”d x 10”h and is a standard size cook stove. The Eco 80 oven is the same as the Eco 90. The Domino 6 Maxi and the Domina measure 24”w x 24”d x 34”h with an oven size of 19”w x 13”d, and are perfect for areas with narrow space requirements.

All models include a heavy-duty radiant cast-iron hotplate for maximum heat conduction, a firebox and flue lined with refractory tiles for maximum heat output, integrated tertiary air for optimal combustion, and an air-wash system that keeps the oven’s window glass clean. All stoves include the ECOPLUS[®] system which improves combustion by way of a pre-heated secondary airflow that passes over the flame and burns off any remaining gas, thereby reducing carbon monoxide levels to the minimum. Other special benefits are: cleaner smoke and lower levels of air pollution with 70-75+% efficiency contributing to reduced wood consumption. These fine wood-fired cooking stove ranges can be placed in a kitchen or living area to provide warmth and nourishment to any surrounding it graces.
