Cooking Smart...

A Fireplace and Cookstove Combo

A fantastic cookstove, the Lugo from Romotop in the Czech Republic is well designed by Vlastislav Vyborny. The rounded corners of the stove body add a soft touch to an elegant design and offer a beautiful addition to rooms that are looking for a cooking feature. This high performance stove cooks and bakes food to perfection with the added benefit of home heating.

The Lugo measures 58" h x 22" w x 19" d with special features that include: drip tray, a positioning grill, an oven thermometer, the ability to top or rear vent and a drawer for storage at the base. Only top quality materials are used in its construction. The body of the Lugo is made of high-grade steel in a gray steel finish. The side cladding is available in a variety of colors, sandstone, natural stone or gray steel and make this stove a versatile choice.

Cooking food on a wood burning fire adds flavor to the food. There is no experience quite like it! Clean burning and efficient, the Lugo wood burning cookstove is a great choice for homes that want to add ambiance, warmth, and nourishment to their environment.
