Shaker Outdoor Grill

A beautiful grill made of cor-ten steel that compliments Shaker style furniture. The Shaker grill and fireplace is durable and can be used outdoors all year long. Over time, cor-ten steel takes on a natural rustic patina when exposed to the elements. Produced in Poland and designed in Norway by Espesgaard, the grill has an inner chamber that helps conduct the heat and keep the outside of the grill warm to the touch. Also, the smart air supply function helps the fire burn cleaner and more evenly, and the removable ash pan inside the firebox allows for easy cleaning.

The Shaker grill measures 65"H x 25"W x 16"D and weighs 97 lbs. Accessories include a protective fire screen, a stainless-steel grill rack, and a stove pipe with a ventilated chimney cap for smoke control. Also available as a special order are a matching cor-ten steel floor plate, a black protective stove cover, and a pipe extension.

A designer grill that is easy to use and maintain, the Shaker grill can be placed on a patio or deck. Look forward to the change in seasons and extend your outdoor fun time, while you reap the benefits of food cooked on an open fire.
