**Modern Metal Fireplaces...**

**Innovation & Know-How**

Founded in 1975 by Jean-Claude Bordelet or France, this original contemporary fireplace collection has endured the test of time. For over 40 years, JC Bordelet has been creating suspended metal fireplaces, which are exceptional products with bold colors and patterns that are design worthy in every sense of the word. Superior craftsmanship combined with innovation and high-quality materials, are all signature details of this line of elegant wood burning sculptures.

Available in four models: Eva, Lea, Tatiana & Zelia, and each style has its own appeal. The Eva is available with 3 curved glass-ceramic panels that slide, or fully open with no glass, the Lea is available in wall mounted or free hanging versions, and the Tatiana is available with a 360° pivot feature. The Zelia is available in wall mounted or free hanging versions in various whimsical textures & colors and has a 360° view of the fire. Other details for this model include: bright colored hoods with internal metal shields that protect the color from heat, and textured hoods that are hand sanded in spiral pattern or aged look. Safari animal patterns are also available.

These fine hearth products are hand crafted to perfection by a team of devoted artisans who take pride in their work and are beautiful home heating solutions with the added benefit of original design, contemporary color choices and daring texture. JC Bordelet is a true leader in the design of suspended metal fireplaces.
