FOR IMMEDIATE RELEASE

Make Fire Happen ...

Anywhere and Everywhere

Versatile and elegant, the Zero Clearance Built-in fireplace from Spartherm, Germany is designed with performance in mind. Made of the finest materials that live up to high quality standards, this contemporary built-in can be used in new construction to add a fireplace to a space where there is none. A powerful in-home heater with clean minimalist lines, the zero-clearance built-in is the perfect match for every home.

Available in two sizes: the 600 (25" w x 23" h x 17" d) and 700 (29" w x 25" h x 19" d). Features include an air control adjustment, a large full-size firebox that fits a log size of 18" maximum and the option of ducting heat into three rooms creates a wood fueled central heating system. Chimney size is 6"-7" and UL 103-HT or ULC S-629 approved. It can be wall mounted, placed on a hearth or be made to look like a traditional home hearth with mantle. These products meet the 2020 EPA emissions standards and are safety tested to meet UL 1482 and ULC S-627 standards.

This eco-friendly zero clearance fireplace has so much to offer. The heat output of the 600 achieves 10,500-47,000 BTU's and the 700 from 13,500 – 49,000 BTU's. Add a Spartherm zero clearance built-in fireplace to a home and effortlessly transform an ordinary living space into a warm and welcoming gathering place.
