

FOR IMMEDIATE RELEASE

Thoroughly Modular Millie ...

A Contemporary Freestanding Stove

Made in Germany, the innovative Spartherm Modular is a freestanding wood burning stove that can be used in different configurations. Elegant and functional, this freestanding fireplace is a smart choice. The burning technology and heat output of this highly efficient firebox takes this product to new levels of fire burning.

Available in two sizes: the 600 (24" w x 22" h x 17" d) and 700 (28" w x 24" h x 18" d). The Spartherm Modular firebox can be placed in three different locations on the bench or used with no bench at all. The bench also functions as a wood storage area underneath. Features include an air control adjustment, a large full-size firebox that fits a log size of 18" maximum and the chimney size is 6"-7" and UL 103-HT or ULC S-629 approved. These products meet the 2020 EPA emissions standards and are safety tested to meet UL 1482 and ULC S-627 standards.

The Modular from Spartherm has so much to offer a designer looking for choices. Compact style, contemporary simplicity and high heating power. The heat output of the 600 achieves 10,500-47,000 BTU's and the 700 from 13,500 – 49,000 BTU's. Perfect for new construction or remodeling jobs, the design of this stove cannot be overlooked.
